Why get the CITP credential?

It tells your clients you:

Represent a 125-year-old established, trusted and regulated profession

Are distinguished from other information technology professionals through your training, experience, testing and education as a CPA

Have access to a community of like-minded professionals and the latest tools, resources and learning opportunities – and more – to be successful

Have had your expertise backed by the world's largest member association representing the accounting profession – the AICPA

Are competent and confident in the subject matter and are committed to continued growth and development in information management and technology assurance

Have demonstrated your specialized skills, expertise and experience in IT assurance; IT risks; data analytics; security and privacy; business solutions; and emerging trends

The pathway to the credential

Step 1: Learn.

The AICPA offers both self-study and classroom-based learning opportunities.

Self-study CITP exam review course

A **self-study exam review course** that offers a comprehensive review of the fundamental dimensions of the CITP Body of Knowledge, in addition to exam practice questions.

- 8 CPE credits

CITP learning pathway

A three-part education series covering the comprehensive CITP Body of Knowledge. Aligned with the CITP Body of Knowledge, the CITP Learning Pathway education consists of the following three modules:

- Information Security & Cyber Risk (Module 1)**
 - Self-study online – 20 CPE credits
- Business Intelligence, Data Management & Analytics (Module 2)**
 - Self-study online – 18 CPE credits
- IT Governance, Risks & Controls (Module 3)**
 - Self-study online – 11.5 CPE credits

CITP Learning Pathway Bundle

Includes the education resources for each of the three CITP Body of Knowledge modules above, in addition to **1 complimentary CITP Exam**, which can be taken upon completion of all three modules.

- Self-study online – 49.5 CPE credits

AICPA certificate programs

The AICPA offers certificate programs in a variety of subject matter areas contained in the CITP Body of Knowledge, including, but not limited to the following:

- Cybersecurity Fundamentals for Finance & Accounting Professionals Certificate**
 - Self-study online – 13.5 CPE credits
- SOC for Cybersecurity Certificate**
 - Self-study online – 14.5 CPE credits
- Data Analytics Core Concepts Certificate**

- COSO Enterprise Risk Management Certificate Program**
 - Self-study online – 13.5 CPE credits

Step 2: Pass the exam.

Exam content:

- Information security governance
- Cybersecurity risk management
- SOC for cybersecurity
- Data management
- Data analysis and reporting
- Business intelligence management
- IT governance and strategy
- IT risks, process and controls
- System and organization controls reporting

CITP Body of Knowledge

* The exam requirement is waived for candidates who have passed ISACA's Certified Information Systems Auditor (CISA®) certification exam.

Step 3: Gain experience.

A CITP candidate must meet the following business experience requirement within the five-year period preceding the date of the CITP credential application:

A **minimum of 1,000 hours of business experience** in the CITP Body of Knowledge. For candidates in academia, a qualified credential holder should be a full-time professor who has taught at least four accredited college courses with 50% of their material included in the CITP Body of Knowledge.

Step 4: Get credentialed.

Initial certification requirements

Regular AICPA membership in good standing

Valid and unrevoked CPA permit, license or certificate issued by a legally constituted state authority

Completed CITP application indicating fulfillment of CITP business experience and exam requirements
