Oversight Report

September 29, 2022

To the Peer Review Committee of the Pennsylvania Institute of CPAs:

We have reviewed the Pennsylvania Institute of CPAs' administration of the AICPA Peer Review Program (program) as part of our oversight program. The Pennsylvania Institute of CPAs is responsible for administering the program in Pennsylvania, Delaware, New York, and the Virgin Islands. Our procedures were conducted in conformity with the guidance established by the AICPA Peer Review Board (board) as contained in the *AICPA Peer Review Program Oversight Handbook*.

Administering Entity's Responsibility

The administering entity is responsible for administering the AICPA Peer Review Program in compliance with the *AICPA Standards for Performing and Reporting on Peer Reviews* (standards) and other guidance established by the board.

Oversight Task Force's Responsibility

Our responsibility is to determine whether (1) administering entities are complying with the administrative procedures established by the board, (2) the reviews are being conducted and reported upon in accordance with the standards, (3) the results of the reviews are being evaluated on a consistent basis by all administering entity peer review committees, and (4) information disseminated by administering entities is accurate and timely.

Conclusion

Based on the results of the procedures performed, we have concluded that the Pennsylvania Institute of CPAs has complied with the administrative procedures and standards in all material respects as established by the board.

We have also issued a letter of oversight procedures and observations that details the oversight procedures performed and sets forth recommendations that did not affect the conclusions expressed in this report.

To the Peer Review Committee of the Pennsylvania Institute of CPAs:

We have reviewed the Pennsylvania Institute of CPAs' administration of the AICPA Peer Review Program as part of our oversight program and have issued our report thereon dated September 29, 2022. That report should be read in conjunction with the observations in this letter. The observations described below were considered but did not affect the conclusions expressed in that report.

The oversight was conducted according to the procedures in the *AICPA Peer Review Program Oversight Handbook*. The oversight program is designed to improve the administering entity's administration of the AICPA Peer Review Program through feedback on its policies and procedures, and to provide resource assistance from an AICPA Peer Review Board Oversight Task Force member on both technical and administrative matters.

During the oversight conducted on September 27-29, 2022, Kim Meyer, a member of the Oversight Task Force, and I met with the Vice President of Technical & Professional Standards, who serves as the CPA on staff, the Peer Review Administration Manager and Coordinators, who serve as the administrators, the technical reviewers, including the Professional & Technical Standards Manager, and the peer review committee chair.

In conjunction with the administering entity oversight, the following observations are being communicated.

Administrative Procedures

We met with the CPA on staff and administrators to review the program's administration. We believe the administrative processes were being handled in a manner consistent with peer review standards.

We reviewed the status of open reviews, including reviews with corrective actions and implementation plans, which had not yet been completed. We noted that open reviews were being effectively monitored for completion by the administering entity staff and the peer review committee.

We noted committee decision letters are prepared and sent timely.

We reviewed the policies and procedures for granting extensions and noted that extension requests are discussed with the committee when warranted.

The administering entity has developed a backup plan to support the administrators, technical reviewers, and the CPA on staff if they become unable to serve in their respective capacities. We reviewed the backup plan and noted it complied with guidance.

According to discussions with administering entity staff, working paper retention policies for completed reviews are consistently followed.

We noted that the administering entity has policies and procedures in place to determine if the information disseminated on their website regarding the AICPA Peer Review Program is accurate and timely. After review of the website material, we noted that the administering entity maintains current information as it relates to the peer review program. In addition, the administering entity has an individual who is responsible for maintaining the website and monitors it periodically to determine if peer review information is accurate and timely.

Technical Review Procedures

We met with the technical reviewers to discuss procedures. Based upon the review of the information provided, we determined that all technical reviewers met the qualifications set forth in the guidance.

We reviewed the reports, letters of response, if applicable, and the working papers for several reviews. We believe the technical reviewer for each review properly addressed issues before the reviews were presented to the report acceptance body (RAB), which helped the efficiency and effectiveness of the acceptance process.

During the RAB meeting observed, the technical reviewers were available to answer any questions that arose.

CPA on Staff

We met with the CPA on staff to discuss procedures for monitoring the program. Based upon the review of the information provided, we determined that the CPA on staff met the qualifications set forth in the guidance.

We reviewed the annual confidentiality agreements and noted that appropriate agreements were obtained and signed based on each individual's role in the program.

The administering entity has developed policies and procedures to identify familiarity threats and implement safeguards to maintain objectivity and skepticism while considering the results of peer reviews. We reviewed the familiarity threat policies and procedures and noted they are comprehensive.

RAB and Peer Review Committee Procedures

We met with the peer review committee chair and discussed their procedures, including how comments resulting from RAB observation reports are disseminated to the appropriate individuals.

We reviewed procedures regarding peer review committee/RAB assessments of firms with consecutive non-pass peer review reports and whether the failure to improve may be deemed as noncooperation. After discussions with the peer review committee chair and administering entity staff, we believe these assessments are handled in a manner consistent with guidance.

We attended a RAB meeting on September 27, 2022 and observed the acceptance process and offered our comments at the close of discussions. It was apparent that the RAB members had reviewed the reports and working papers prior to the meeting and had a good understanding of the program. Appropriate decisions were made in the acceptance process.

We also attended a peer review committee meeting on September 29, 2022.

Oversight Program

We reviewed the oversight policies and procedures adopted by the peer review committee and noted the oversight program is comprehensive.

Summary

There are no further observations to be communicated to the Pennsylvania Institute of CPAs.
