**Proposed AU-C 810, Engagements to Report on Summary Financial Statements
(Marked from Extant)**

Introduction, Effective Date, Objective, Definitions, and Requirements	Application and Other Explanatory Material
Introduction	
<p>Scope of This Section Proposed SAS .1 1 This section proposed SAS addresses the auditor's responsibilities relating to an engagement to report separately on summary financial statements derived from financial statements audited in accordance with generally accepted auditing standards (GAAS) by the same auditor. In such an engagement, the auditor forms an opinion about whether the summary financial statements are consistent, in all material respects, with the audited financial statements from which they have been derived, in accordance with the applied criteria.</p>	
<p>.2 2 This section proposed SAS does not apply to condensed financial statements or summarized financial information presented as comparative information.¹ Section 700, <i>Forming an Opinion and Reporting on Financial Statements</i>, of SAS No. 134 addresses the auditor's responsibility for comparative information.² (Ref: par. .A1)</p>	<p>Scope of This Proposed SAS Section (Ref: par. 2.2) .A1 A1 Financial statements may present comparative information in the form of condensed financial statements or summarized financial information. For example, entities such as state and local governmental units may present prior period</p>

¹ Paragraph .08 of section 700, *Forming an Opinion and Reporting on Financial Statements* of SAS No. 134 defines the terms *condensed financial statements* and *comparative information*.

² Paragraphs .46-55 of section 700 of SAS No. 134.

	<p>financial information in their government-wide financial statements only for the total reporting entity rather than disaggregated by governmental activities, business-type activities, total primary government, and discretely presented component units. Also, not-for-profit organizations frequently present certain information for the prior period in total rather than by net asset class. As described in paragraph .2, this proposed SAS section does not apply to reporting on financial statements containing such comparative information. Summary financial statements differ from comparative information. Summary financial statements may be presented in a document containing financial statements or in a separate document, whereas comparative information is presented within the financial statements. Refer to section 700 for the auditor's responsibilities for reporting on comparative information.³</p> <p style="color: green;">Deleted the last sentence because it is already addressed in par 2.</p>
<p>.3 .03 Summary financial statements may be required by a designated accounting standards setter (for example, the Governmental Accounting Standards Board) to accompany the basic financial statements. This section does not apply in such circumstances. Section 730, <i>Required Supplementary Information</i>, addresses the auditor's responsibilities relating to information supplementary to the basic financial statements that is required by a designated accounting standards setter to accompany such financial statements.</p>

Introduction, Effective Date, Objective, Definitions, and Requirements	Application and Other Explanatory Material
<p>Summary financial statements. Historical financial information ⁴ that is derived from financial statements but that contains less detail than the financial statements, while still providing a structured representation consistent with that provided by the financial statements of the entity's economic resources or obligations at a point in time or the changes therein for a period of time. Summary financial statements are separately presented and are not presented as comparative information</p>	
<p>6.7 ⁷ In this <u>proposed SAS</u>section, the term <i>audited financial statements</i> refers to those financial statements ⁵ audited by the auditor in accordance with GAAS and from which the summary financial statements are derived.</p>	
<p>Requirements</p> <p>Engagement Acceptance 7.8 ⁸ The auditor should not accept an engagement to report on summary financial statements in accordance with this section <u>proposed SAS</u> unless the auditor has been engaged to conduct an audit in accordance with GAAS of the financial statements from which the summary financial statements are derived. (Ref: par. .A2)</p>	<p>Engagement Acceptance (<u>Ref: par. .8</u>) .A2 .A2 The audit of the financial statements from which the summary financial statements are derived provides the auditor with the necessary knowledge to discharge the auditor's responsibilities regarding the summary financial statements, in accordance with this section. Application of this section will not provide sufficient appropriate evidence on which to base the opinion on the summary financial statements if the auditor also has not audited the financial statements from which the summary financial statements are derived. (<u>Ref: par. 8</u>)</p>

⁴ Paragraph .14 of section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*, defines the term *historical financial information*.

⁵ Paragraph .14 of section 200 defines the term *financial statements*.

<p>.8.9.9 Before accepting an engagement to report on summary financial statements, the auditor should</p> <p>a. determine whether the applied criteria are acceptable, including determining that the applied criteria (Ref: par. .A3–.A5)</p> <ol style="list-style-type: none"> i. are free from bias so that the summary financial statements are not misleading. ii. permit reasonably consistent qualitative or quantitative measurements so that the information in the summary financial statements agrees with or can be recalculated from the related information in the audited financial statements. iii. are sufficiently complete so that the summary financial statements contain the information necessary and are at an appropriate level of aggregation, so that they are not misleading in the circumstances. iv. are relevant to the summary financial statements in view of their purpose. <p>b. obtain the agreement of management, in writing, that it acknowledges and understands its responsibility</p> <ol style="list-style-type: none"> i. for the preparation of the summary financial statements in accordance with the applied criteria. 	<p>Criteria (Ref: par. .9a)</p> <p>.A3 A3 The preparation of summary financial statements requires management to determine the information that needs to be reflected in the summary financial statements so that they are consistent, in all material respects, with the audited financial statements. Because summary financial statements by their nature contain aggregated information and limited disclosure, there is an increased risk that they may not contain the information necessary so that they are not misleading in the circumstances. This risk increases when established criteria for the preparation of summary financial statements do not exist.</p> <p>.A4 A4 Factors that may affect the auditor's determination of the acceptability of the applied criteria include the following:</p> <ul style="list-style-type: none"> • The nature of the entity • The purpose of the summary financial statements • The information needs of the intended users of the summary financial statements • Whether the applied criteria will result in summary financial statements that are not misleading in the circumstances <p>.A5 A5 The criteria for the preparation of summary financial statements may be established by an authorized or recognized standards-setting organization or by law or regulation. In many such cases, the auditor may presume that such criteria are acceptable. When established criteria for the preparation of summary financial statements do not exist, criteria may be developed by management, for example, based on practice in a particular industry.</p>

- Criteria are developed by management for the preparation of the summary financial statements and are adequately disclosed in Note X. The auditor has determined that the criteria are acceptable in the circumstances.

Independent Auditor's Report on Summary Financial Information

[Appropriate Addressee]

Opinion

The ~~accompanying~~ summary financial statements, which comprise the summary balance sheet as of December 31, 20X1, the summary income statement, summary statement of changes in stockholders' equity, and summary cash flow statement for the year then ended, and the related notes, are derived from the audited financial statements of ABC Company as of and for the year ended December 31, 20X1. ~~We expressed an unmodified audit opinion on those audited financial statements in our report dated February 15, 20X2. The audited financial statements, and the summary financial statements derived therefrom, do not reflect the effects of events, if any, that occurred subsequent to the date of our report on the audited financial statements.~~

As drafted, this aligns with the ISA 810 report construct, but some may find it more helpful to have the shaded sentence located here rather than in the section "The Audited Financial Statements and Our Report Thereon."

In our opinion, the accompanying summary financial statements of ABC Company as of and for the year ended December 31, 20X1 referred to above are consistent, in all material respects, with the audited financial statements from which they have been derived, on the basis described in Note X.

Summary Financial Statements

The summary financial statements do not contain all the disclosures required by [describe financial reporting framework applied in the preparation of the financial statements of ABC Company]. Reading the summary financial statements and the auditor’s report hereon, therefore,

Management's Responsibility of Management for the Summary Financial Statements

~~Management is responsible for the preparation of the summary financial statements ~~on~~ in accordance with the basis criteria described in Note X.~~

Auditor's Responsibility

~~Our responsibility is to express an opinion ~~on about~~ whether the summary financial statements are consistent, in all material respects, with the audited financial statements based on our procedures, which were conducted in accordance with ~~this proposed SAS~~ auditing standards generally accepted in the United States of America. The procedures consisted principally of comparing the summary financial statements with the related information in the audited financial statements from which the summary financial statements have been derived, and evaluating whether the summary financial statements are prepared in accordance with the basis described in Note X. We did not perform any audit procedures regarding the audited financial statements after the date of our report on those financial statements.~~

The requirement in par. 15j was revised to be consistent with ISA 810. To avoid confusion with the audit of a complete set of financial statements, the ISA indicates that the procedures are performed in accordance with ISA 810, not the ISAs. This wording will need to change to "in accordance with this proposed SAS" (which when final would state "in accordance with AU-C section 810, *Engagements to Report on Summary Financial Statements*). Does the ASB agree with this change?

Summary Financial Statements

The summary financial statements do not contain all the disclosures required by [*describe financial reporting framework applied in the preparation of the financial statements of ABC Company*].

¹ When the auditor's report on the summary financial statements is dated later than the date of the auditor's report on the audited financial statements, the following sentence is added to this paragraph: "The audited financial statements, and the summary financial statements derived therefrom, do not reflect the effects of events, if any, that occurred subsequent to the date of our report on the audited financial statements."

Proposed AU-C 810, *Engagements to Report on Summary Financial Statements*
(Marked from Extant)
ASB Meeting, May 20-23, 2019

Reading the summary financial statements and the auditor's report hereon, therefore, is not a substitute for reading the audited financial statements ~~of ABC Company~~, and the auditor's report thereon. The summary financial statements and the audited financial statements do not reflect the effects of events that occurred subsequent to the date of our report on the audited financial statements.

The Audited Financial Statements and Our Report Thereon

We expressed a qualified audit opinion on those audited financial statements in our report dated February 15, 20X2 (see below)². The summary financial statements are misstated to the equivalent extent as the audited financial statements of ABC Company as of and for the year ended December 31, 20X1. The misstatement of the audited financial statements is described in our qualified audit opinion in our report dated February 15, 20X2. Our qualified audit opinion is based on the fact that the Company's inventories are carried in the balance sheet in those audited financial statements at \$XXX. Management has not stated the inventories at the lower of cost or net realizable value but has stated them solely at cost, which constitutes a departure from [describe financial reporting framework applied in the preparation of the financial statements of ABC Company]. The Company's records indicate that, had management stated the inventories at the lower of cost or net realizable value, an amount of \$XXX would have been required to write the inventories down to their net realizable value. Accordingly, cost of sales would have been increased by \$XXX, and income tax, net income, and stockholders' equity would have been reduced by \$XXX, \$XXX, and \$XXX, respectively. Our qualified audit opinion states that, except for the effects of the described matter, those financial statements present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with [describe financial reporting framework applied in the preparation of the financial statements of ABC Company]

When the opinion on the audited financial statements is qualified, the wording in extant AU-C 810 is different from, and more extensive than it is in ISA 810 (Revised). The wording in the ISA illustrative report (shown in the comment box) may be preferable because it seems inconsistent to express an unmodified opinion on the summary financial statements and then state in the report that the summary financial statements are misstated. The point is that the summary financial statements are consistent with the audited financial statements, but those audited financial statements are misstated. Does the ASB support using the ISA wording?

Commented [JS1]: We expressed a qualified audit opinion on the audited financial statements in our report dated February 15, 20X2. The basis for our qualified audit opinion was that management has not stated the inventories at the lower of cost or net realizable value but has stated them solely at cost, which constitutes a departure from [describe financial reporting framework applied in the preparation of the financial statements of ABC Company]. The Company's records indicate that, had management stated the inventories at the lower of cost or net realizable value, an amount of \$XXX would have been required to write the inventories down to their net realizable value. Accordingly, cost of sales would have been increased by \$XXX, and income tax, net income, and stockholders' equity would have been reduced by \$XXX, \$XXX, and \$XXX, respectively.
