Additional Information

.80 When management includes, either within management's report or in a document containing management's report, information in addition to the elements that are subject to the auditor's evaluation as described in paragraph .55, the auditor should

- a. disclaim an opinion, in an other-matter paragraph, on the additional information when such information is included in management's report. (Ref: par. .A129)
- b. read the additional information to identify material inconsistencies with management's report and material misstatements of fact when such information is included outside management's report in a document containing management's report and the related auditor's report. If, upon reading the additional information, the auditor becomes aware of an apparent material inconsistency or misstatement of fact, the auditor should request management to revise the information. If management refuses to make the revision, the auditor should communicate this matter to those charged with governance and take appropriate action which may include withholding the auditor's report. apply the requirements in section 720, Other Information in Documents Containing Audited Financial Statements, adapted as necessary, to the audit of ICFR. (Ref: par. .A130)

SPECIAL TOPICS

Entities With Multiple Components

[No proposed amendments to paragraphs .81-.83.]

Special Situations

[No proposed amendments to paragraphs .84-.85.]

.86 In situations in which management elects to limit its assessment by excluding certain entities, the auditor should evaluate whether it is appropriate, in the auditor's judgment, to do so. If the auditor concludes that it is appropriate, in applying the requirement in paragraph .64d, the auditor should include ~~in the introductory paragraph of the report~~ a disclosure similar to management's regarding the exclusion of an entity from the scope of both management's assessment about ICFR and the auditor's audit of ICFR. Additionally, the auditor should evaluate the appropriateness of management's disclosure related to such a limitation. (Ref: par. .A136)

REPORTING ON ICFR (REF: PAR. .64-.65)

Considerations Specific to Governmental Entities

.A113 When the audit is also conducted in accordance with *Government Auditing Standards* (also known as the Yellow Book), the auditor may state that the audit was conducted in accordance with the auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. If significant deficiencies in ICFR are identified in such an audit and the auditor's report refers to *Government Auditing Standards*, those standards require the auditor to report such deficiencies. The following is an illustration of that communication through the addition of other-matter paragraphs to the auditor's report:

In accordance with *Government Auditing Standards*, we are required to report findings of significant deficiencies. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies in ABC Company's internal control described below [*or in the accompanying schedule of findings*] to be significant deficiencies.

ABC Company's response to the findings identified in our audit is described below [*or in the accompanying schedule of findings*]. We did not audit ABC Company's response and, accordingly, we express no opinion on the response.

~~.A114 When an other matter paragraph relating to ICFR is included in a financial statement audit report, the auditor may include a heading above the other matter paragraph such as "Report on Internal Control Over Financial Reporting." When an other matter paragraph relating to the financial statement audit is included in an ICFR report, the auditor may include a heading above the other matter paragraph such as "Report on the Financial Statements."~~

Definition and Inherent Limitations of Internal Control Over Financial Reporting

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with [*applicable financial reporting framework, such as accounting principles generally accepted in the United States of America*]. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with [*applicable financial reporting framework, such as accounting principles generally accepted in the United States of America*], and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct, misstatements. Also, projections of any assessment of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements and Internal Control Over Financial Reporting section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements and Internal Control Over Financial Reporting

Management is responsible for the preparation and fair presentation of ~~these~~the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of effective internal control over financial reporting relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern [insert the time period set by the applicable financial reporting framework].

An audit of internal control over financial statements reporting involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's whether a material weakness exists.~~

~~Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit of financial statements or an audit of internal control over financial reporting conducted in accordance with GAAS will always detect a material misstatement or a material weakness when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.~~

~~In performing an audit of financial statements and an audit of internal control over financial reporting in accordance with GAAS, we:~~

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with accounting principles generally accepted in the United States of America. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct, misstatements. Also, projections of any assessment of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinions

~~In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ABC Company as of December 31, 20XX, and the results of its operations~~

~~and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America. Also, in our opinion, ABC Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 20XX, based on [identify criteria].~~

EXHIBIT D — REPORTING UNDER SECTION 112 OF THE FEDERAL DEPOSIT INSURANCE CORPORATION IMPROVEMENT ACT

.A157

1. The Federal Deposit Insurance Corporation (FDIC) has provided guidance on the meaning of the term *financial reporting* for purposes of compliance by insured depository institutions (IDIs) with Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA) (Section 36 of the Federal Deposit Insurance Act [FDI Act], 12.U.S.C. 1831m), and its implementing regulation, 12 CFR Part 363. The FDIC's guidance indicates that financial reporting, at a minimum, includes both financial statements prepared in accordance with generally accepted accounting principles (GAAP) for the IDI (or its holding company) and financial statements prepared for regulatory reporting purposes. Financial statements prepared for regulatory reporting purposes include the schedules equivalent to the GAAP-based financial statements that are included in an IDI's (or its holding company's) appropriate regulatory report (for example, Schedules RC, RI, and RI-A in the Consolidated Reports of Condition and Income [Call Report]). Accordingly, to comply with the FDICIA and Part 363, management of the IDI (or its holding company) and the auditor are required to identify and test controls over the preparation of GAAP-based financial statements as well as the schedules equivalent to the GAAP-based financial statements that are included in the IDI's (or its holding company's) appropriate regulatory report. Further, both management and the auditor are required to include in their report on the IDI's (or its holding company's) internal control over financial reporting (ICFR) a specific description indicating that the scope of ICFR included controls over the preparation of the IDI's (or its holding company's) GAAP-based financial statements as well as the schedules equivalent to the GAAP-based financial statements that are included in the IDI's (or its holding company's) appropriate regulatory report.¹

¹ Refer to Section 36 of the Federal Deposit Insurance Act (FDI Act), Section 363.1: Scope and Definitions, for the requirements pertaining to compliance by subsidiaries of holding companies.

Definition of ICFR for FDICIA Purposes

2. In accordance with paragraph .64^g of this section, the auditor's report is required to include a definition of ICFR that uses the same description of ICFR that management uses in its report. The following is an illustrative definition paragraph that may be used when an IDI that is an insured bank (which is not subject to Section 404 of the Sarbanes-Oxley Act of 2002) elects to report on controls for FDICIA purposes at the bank holding company level:

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with accounting principles generally accepted in the United States of America. Because management's assessment and our audit were conducted to meet the reporting requirements of Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA), our audit of [*Holding Company's*] internal control over financial reporting included controls over the preparation of financial statements in accordance with accounting principles generally accepted in the United States of America and with the instructions to the Consolidated Financial Statements for Bank Holding Companies (Form FR Y-9C).² An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Requirements When the IDI Is Required to Report on ICFR at the IDI Level

3. This paragraph and the following paragraphs are applicable and provide guidance when an IDI is required by 12 CFR Part 363 to report on ICFR at the IDI level. An IDI that is a

² This sentence would be modified if the insured depository institution (IDI) reports at the institution level rather than at the bank holding company level to refer to the Federal Financial Institutions Examination Council Instructions for Consolidated Reports of Condition and Income instead of to the Form FR Y-9C. This sentence would also be modified if the IDI reports at a holding company level and employs another approach to reporting on controls over the preparation of regulatory reports as permitted by Section 36 of the FDI Act.

subsidiary of a holding company may use the consolidated holding company's financial statements (group financial statements) to satisfy the audited financial statements requirement of 12 CFR Part 363, provided certain criteria are met.³ For some IDIs, however, an audit of ICFR is required at the IDI level. An audit of ICFR is required to be integrated with an audit of financial statements. Accordingly, to comply with the integrated audit requirements in this section, when the IDI elects to use the holding company's group financial statements to satisfy the audited financial statements requirement of 12 CFR Part 363 and the audit of ICFR is required to be performed at the IDI level, the auditor would be required to perform procedures necessary to obtain sufficient appropriate audit evidence to enable the auditor to express an opinion on the IDI's financial statements and on its ICFR. When the IDI does not prepare financial statements at the IDI level for external distribution, "financial statements" for this purpose may consist of the IDI's financial information in a reporting package or equivalent schedules and analyses that include the IDI information necessary for the preparation of the holding company's group financial statements, including disclosures. The measurement of materiality is determined based on the IDI's financial information rather than the holding company's group financial statements.⁴ If the auditor is unable to apply the procedures necessary to obtain sufficient appropriate audit evidence with respect to the IDI's financial information, the auditor is required by paragraph .73 of this section to withdraw from the engagement or disclaim an opinion on the effectiveness of ICFR at the IDI level.

Evaluation of IDI Financial Reporting Process

4. As previously described, the FDIC indicated that financial reporting, at a minimum, includes both financial statements prepared in accordance with generally accepted accounting principles (GAAP) for the IDI (or its holding company) and financial statements prepared for regulatory purposes. Financial statements prepared for regulatory reporting purposes include the schedules equivalent to the GAAP-based financial statements that are included in an IDI's (or its holding company's) appropriate regulatory report. When the IDI does not prepare financial statements for external distribution, the auditor is, nevertheless, required by paragraph .24 of this section to evaluate the IDI's period-end financial reporting process. This process includes, among other things, the IDI's procedures for preparing financial information for purposes of the holding company's group financial statements, which are prepared in accordance with GAAP, and the schedules equivalent to the GAAP-based financial statements that are included in the IDI's appropriate regulatory report.

³ See footnote 1.

⁴ See paragraph .10 of section 320, *Materiality in Planning and Performing an Audit*.

Organization Structure

5. The period-end financial reporting process may occur either at the IDI or the holding company, or both. The organizational structure, including where the controls relevant to the IDI's financial information operate, may affect how the auditor evaluates this process. For example

- a. when the period-end financial reporting process occurs at the holding company and the IDI comprises substantially all of the consolidated total assets, there may be no distinguishable difference between the IDI's and its holding company's process for purposes of the integrated audit. This is because the auditor's risk assessment, including the determination of significant classes of transactions, account balances, and disclosures, and their relevant assertions, the selection of controls to test, and the determination of the evidence necessary to conclude on the effectiveness of a given control, would likely be the same for the IDI and the holding company.⁵ In this circumstance, the period-end financial reporting process of the holding company would be, in effect, the period-end financial reporting process of the IDI and, therefore, would be included in the scope of the integrated audit of the IDI.
- b. when the period-end financial reporting process occurs at the holding company and the IDI does not comprise substantially all of the consolidated total assets, the IDI's financial reporting process may be sufficient for the auditor to meet the requirement in paragraph .24 of this section, if the necessary GAAP information is prepared by the IDI or the holding company, and the process can be evaluated by the auditor. The auditor may determine that the IDI's preparation of the IDI's appropriate regulatory report, together with other financial information at the IDI level that is incorporated into the holding company's group financial statements, is sufficient for this purpose. In this circumstance, both the period-end financial reporting process of the holding company, as it relates to the financial information of the IDI, and the period-end financial reporting process of the IDI, with respect to the preparation of the schedules equivalent to the basic financial statements that are included in the IDI's appropriate regulatory report, would be included in the scope of the integrated audit of the IDI.

IDI Not Subject to Section 404 of Sarbanes-Oxley Act of 2002

6. The illustrative reports in exhibit A, "Illustrative Reports," of this section may be used to report on the effectiveness of the IDI's ICFR. Because 12 CFR Part 363 does not require

⁵ See paragraph .A22 of this section.

the auditor to issue a separate auditor's report on the IDI's financial statements, the requirement in paragraph .65 of this section to add ~~an other matter~~ paragraph to the ICFR report that references the financial statement audit will not apply when the auditor does not issue a separate auditor's report on the IDI's financial statements. In accordance with paragraph .64 of this section, the auditor's report on ICFR is required to include a definition of ICFR that uses the same description of ICFR as management uses in its report. The following is an illustrative definition paragraph that may be used when an IDI that is not subject to Section 404 of the Sarbanes-Oxley Act of 2002 is required to report on controls for FDICIA purposes at the IDI level, and the IDI uses the holding company's group financial statements to satisfy the audited financial statements requirement of 12 CFR Part 363:

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with generally accepted accounting principles. Because management's assessment and our audit were conducted to meet the reporting requirements of Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA), our audit of [IDI's] internal control over financial reporting included controls over the preparation of financial information for purposes of [*consolidated holding company's*] financial statements in accordance with accounting principles generally accepted in the United States of America and controls over the preparation of schedules equivalent to basic financial statements in accordance with the Federal Financial Institutions Examination Council Instructions for Consolidated Reports of Condition and Income (Call Report Instructions). An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Use of the *Internal Control — Integrated Framework (2013)* (COSO)

7. Management may evaluate and report on the effectiveness of the IDI's ICFR based on the report *Internal Control—Integrated Framework (2013)*, issued by Committee of Sponsoring Organizations of the Treadway Commission's (COSO). For purposes of reporting under Section 112 of FDICIA, the COSO criteria relevant to internal reporting

objectives are appropriate only for the IDI and its regulatory agencies that are presumed to have an adequate understanding of the level of the auditor's service on historical financial information, considering the IDI does not prepare external GAAP-based financial statements. Accordingly, the report is required to include an other-matter paragraph, under an appropriate heading, that restricts its use.⁶ An example of such a restriction is as follows:

Restriction on Use⁷

This report is intended solely for the information and use of management, [*identify the body or individuals charged with governance*], others within the organization, the Federal Deposit Insurance Corporation and [*other federal bank regulatory agency*] and is not intended to be and should not be used by anyone other than these specified parties.

8. Likewise, the auditor's report and management's assessment about ICFR refer to the COSO criteria relevant to internal reporting objectives. For example, the following may be used to identify the criteria: "criteria established in the *Internal Control—Integrated Framework* (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) relevant to internal reporting objectives for the express purpose of meeting the regulatory requirements of Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA)."

⁶ See paragraphs .06a and .07 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication* . Although reports on internal control issued in accordance with the guidance in this appendix are required to be restricted as to use, Section 36 of the FDI Act and Title 12 U.S. *Code of Federal Regulations* Part 363 require that these reports be available for public inspection.

⁷ Another appropriate heading may be used.
